.....

Mukti and Nath. Mukti means Salvation or Nirvana and Nath mean god or Master. Mukti Holds great significance for all spiritual people in the south Asian subcontinent. Mukthinath This Sanskrit name itself has religious overtone and a sort of emotional ring to it for the devout Hindus. The name is synthesis of two words - (the provider of salvation) has been one such holy site, where thousands of devotees flock for attaining the much sought after moksha (Freedom) from the cycle of birth and rebirth. It is an ardent wish or a dream if you may say, of every Hindu to get Mukti-Nirvana from this cycle taking births over and over again. It is belief of the Hindus that this world is "MAYA" (an illusion) and the earliest one gets out of it the better and a visit to Mukthinath will help them achieve that goal. Since then, it is called Mukthinath. Hindus call it Mukti-hetra (Place of salvation) is one of the four religious sites. Many Shaligrams (Ammonite) found here are considered by Hindu as incarnation of lord Vishnu and worship them. According to Hindu Myth lord Vishnu turned into Shaligram because of Brinda's Curse. This place is opened through out the year.
